Report on One-Day Workshop on Curating Innovative Future Technologists Objectives:

This event is typically designed to introduce participants to the training program. The program's objective is to provide comprehensive training for students in the transportation and water sectors, fostering skill enhancement and knowledge development. This aims to boost career growth and infrastructure project improvement.

Benefits in terms of learning/skill/learning obtained:

- Specific objectives include refining road alignment design skills for safety, efficiency, and sustainability, staying current with industry standards, and leveraging cutting-edge software tools.
- For rail and metro structural design, the focus is on safety, durability, and BIM technology proficiency while adhering to sector-specific regulations. In the water sector, the emphasis is on tailored sewer network design, adherence to local and international standards, and sustainable water management.
- Cross-cutting goals include interdisciplinary collaboration, technology adoption, safety, and career advancement support. This holistic approach facilitates well-rounded professional development and project excellence.

2.	Archana J K	Qualification : M.Tech in StructuralEngineering College : College of EngineeringTrivandrum J o b : G r a d u a t e Technologist Working in Rail and Metro -Structural design.	
3.	Deepika R	Qualification : B.E in CivilEngineering College : SMVIT Job : Graduate Technologist Working in Transportation sector for road alignment design and modelling.	
4.	Tahir Sidique	Qualification : B.E in CivilEngineering College : Siddaganga Institute Of Technology Job : Graduate Technologist Working as a BIM engineer in rail andmetro department	
5.	Pealty Langthasa	Qualification : B.Tech in CivilEngineering College : NIT Silchar Job : Graduate Technologist Working in water sector (For Uzbekistan sewer networks)	

1. **Program theme:** The first event of a training program "Orientation" or "Kick-off" event. This event is typically designed to introduce participants to the training program, set expectations, and provide an overview of the training agenda and goals. During the event, trainers also covered logistical details, such as schedules, resources, and necessary materials for software installation. It's a crucial starting point to ensure that participants are well-prepared and informed about what to expect throughout the training program
2. **Summary of the event:** It's a platform for technologists to come together, share insights, and inspire the next generation of innovations.
